## DESIGN/BUILD WITH JERSEY DEVIL: A HANDBOOK FOR EDUCATION AND PRACTICE

Princeton Architectural Press July 2016, 2016. Trade Paperback. Book Condition: New. Steve Badanes, Jim Adamson, and John Ringel believe an architect's job does not stop at designing a building, but that it extends to constructing it as well. Now working into their fifth decade, Jersey Devil, the loose-knit group they founded in 1972, bands together under this design/build ethos that an architect's place is just as much on the job site as it is at the drawing board. The trio pioneered design/build practice and their influence has spawned more than one hundred design/build programs. Jersey Devil's process and expertise are unpacked in this Architecture Brief, providing students and teachers with a toolkit for design/build education. Through stories, didactic commentary, and sample exercises, the Design/Build complements nuts-and-bolts content with Jersey Devil's philosophy and perspective, allowing the book to impart practical instruction while acting as a valuable guide for navigating the elusive challenges of design/build. Themes touch on socially responsible architecture, intuition and intentionality, detailing and fostering craftsmanship, group work and collaboration, off-the-shelf components and nonstandard applications, educational reform, ethos and risk, good life and play, the politics of building, and university-community relations.
