

Ecologies of the Heart: Emotion, Belief, and the Environment

By E. N. Anderson

Oxford University Press. Hardcover. Book Condition: New. Hardcover. 272 pages. Dimensions: 9.1in. x 5.8in. x 1.0in. There is much we can learn about conservation from native peoples, says Gene Anderson. While the advanced nations of the West have failed to control overfishing, deforestation, soil erosion, pollution, and a host of other environmental problems, many traditional peoples manage their natural resources quite successfully. And if some traditional peoples mismanage the environment--the irrational value some place on rhino horn, for instance, has left this species endangered--the fact remains that most have found ways to introduce sound ecological management into their daily lives. Why have they succeeded while we have failed In *Ecologies of the Heart*, Gene Anderson reveals how religion and other folk beliefs help pre-industrial peoples control and protect their resources. Equally important, he offers much insight into why our own environmental policies have failed and what we can do to better manage our resources. A cultural ecologist, Gene Anderson has spent his life exploring the ways in which different groups of people manage the environment, and he has lived for years in fishing communities in Hong Kong, Malaysia, Singapore, Tahiti, and British Columbia--as well as in a Mayan farmtown in south...
