

Environmental Protection: Information on EPAs Underground Injection Control Program: Rced-95-21

By -

Bibliogov. Paperback. Book Condition: New. This item is printed on demand. Paperback. 22 pages. Dimensions: 9.7in. x 7.4in. x 0.1in. Pursuant to a congressional request, GAO reviewed the Environmental Protection Agency's (EPA) Underground Injection Control Program, focusing on: (1) EPA efforts to ban underground hazardous waste injections; (2) whether EPA inspection and enforcement data are adequate to ensure proper program oversight; and (3) the status of prior recommendations to improve the program. GAO found that: (1) EPA has made progress in implementing federal regulations banning underground injection of hazardous wastes; (2) between 1988 and 1993, the number of underground hazardous waste injections declined from 189 to 118; (3) although 103 of the 118 well owners were able to demonstrate that untreated hazardous wastes would not migrate from the injection zones, EPA allowed 15 owners to continue injecting untreated hazardous wastes because these wells could not treat the types of wastes being injected or EPA had not developed treatment standards for these wastes; (4) although key oversight data in the Underground Injection Control Program are not accurate, EPA does not believe these data errors compromise its oversight ability; (5) EPA plans to resolve most of the program data problems by December 1994...

Reviews

This book may be really worth a read through, and far better than other. it was actually writtern extremely completely and valuable. I am just very easily will get a satisfaction of looking at a published ebook.

-- **Lillie Toy**

It is easy in read through easier to fully grasp. it had been writtern very completely and useful. I am pleased to let you know that here is the greatest book we have read during my personal life and could be he very best book for possibly.
